

# International Review,

111 WILLIAM STREET.

New York, March 2 1876

Principal J. W. Dawson Esq.

Dear Sir

It is my pleasure to acknowledge

the receipt of your interesting  
paper upon the Chaldean Genesis  
& will endeavor to send you  
two copies of proof as requested  
Being so entirely new in  
some of your comparisons  
& conclusions, would it not  
serve the purposes of this  
Review better to send a

copy of this <sup>new</sup> number, or her  
out, to Mr. Smith, rather  
than the post? We  
should like to have him  
know us in the connection,  
& the extract over an <sup>extra</sup>  
set of proofs will not be  
appreciable.

It may be interesting

for you to know that there  
will be a careful review  
of Brewster's Races of the  
Pacific Coast in the same  
(next) number.

We shall be glad to  
receive notice of Horeke at  
any convenience & remain dear  
sir with respect yours Truly The Editor
