Montreal, 19<sup>th</sup> June 1875.

Miss: Primrose Mr.

Pictou N.S.

Dear Sir,

The time approaches when our friends will be called upon to remit to Mr Primrose the balance due upon the Iron areas now represented by the bond he holds and we therefore write to you to enquire if, in consideration of the stringent state of the money market and the utter impossibility of finding a sale for the property for a long time to come he will be inclined to extend the time for payment.

It will be a great convenience to our friends who are expending money upon the property daily, as you are aware and who would of course gladly pay the interest and continue to do so at such intervals as might be agreed upon - every 3 or 6 months.

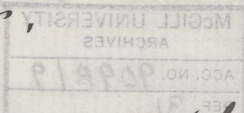

It is quite probable that one of the gentlemen interested (M: Cotté of the Jacques Cartier Bank) may be so embarrassed at the present time that his proportion will have to be met by the other associates, which under existing circumstances is a nuisance, and makes our friends more desirous to obtain delay. Should however

Mr Primrose, after consideration feel unable to accede to our request we shall be prompt with our remittance

Awaiting your reply, we are, dear Sir,

Yours truly

J. D. Harford

City of Rome June 22

My dear Sir,

I enclose  
letter received to-  
day from Mr. Ciampini  
of Rome the statements  
made in his letter  
<sup>on the subject of the</sup>  
to be true, and  
also that spot we  
have made & arrange  
with letter to get  
him & however  
and of the matter  
if it can be done  
by the parties to the  
land on which  
and in my judgment

it would be better  
to have them examined  
either by whole or  
in part. <sup>It would be better</sup> My idea  
is that it  
would suit them if  
a part by one  
half was left  
over, if the parts  
are not able to  
be made over the  
whole

Yours truly  
W.D.
