

PROF. CHAS. FRED. HARTT, A. M.,  
(Absent in Brazil.)

DEPARTMENT OF GEOLOGY AND PALEONTOLOGY

OF THE

THEO. B. COMSTOCK, B. S.,  
Assistant Professor of General and Economic  
Geology,  
(In charge of the department.)

Cornell University,

FREDERIC W. SIMONDS, B. S.,  
Instructor in Geology and Paleontology.

Ithaca, N. Y., November 2, 1875.

My Dear Sir;—

I wish very much to obtain a few specimens of Cozöon and other fossils from the Canadian rocks not common in other localities.

[I use the term Canadian, geographically only, of course.]

Can I get these from you and what can I offer you in exchange? I have a few Polyps, Brachiopods and Cephalopods from the Cincinnati Group, (of the Ohio Survey) besides a collection of western (Rocky Mountains) rocks, etc. If I cannot meet your wishes, I would be glad to make the exchange on behalf of the Cornell University, as I need the specimens for which I now ask, for purposes of illustration.

I am, Sir, Very Respectfully,  
Theo. B. Comstock.

Dr. J. W. Dawson,  
Mc Gill College,  
Montreal.

Will you be good enough to inform me where I can obtain microscopic mounted sections of Cozöon?

Received  
Nov 10 1875  
J. W. Dawson
