

EDWARD M. COLIE,

756 BROAD STREET.

(Room 3.)

With
STONE & JACKSON,
Law Office.

Newark, N. J., Nov 8, 1871

Dr. J. W. Dawson,

Dr. Sir:

I feel some diffidence
in regard to troubling you, since
many similar requests must be
made of you; but I am very desir-
ous of obtaining a specimen of
"Cozyen canadensis" for microscopic
study and examination, and I know
of no other source from which to
obtain one. I thought it probable
that you had a number of specimens
from the Laurentian, and would willingly
part with one; if you can oblige
me, you will confer a great favor.
Whatever expense may be attendant
upon obtaining it I will willingly

much, and if you will send it to
me by express to Newark I will
pay the expressage on its receipt or
if you will inform me the amount
of stamps requisite I will forward
them and it can be sent by mail.
The latter is probably the better way.

Very Resp^y.

Edward C. Cline
