

Letter Book 86  
Dec 31/75

Gentlemen

Send herewith  
Supplementary chapters to  
Journ of lifes; and would  
like it put into type  
at once and a rough  
proof sent to me.

It will then be  
available for soon as  
your first edition is  
out to make a veritable  
second edition, and extra  
copies can be struck off  
as a pamphlet to supply  
to those who have the  
1st edition.

I propose to get a black cat,  
of one of the new specimens  
I found to and shall  
send it to you with the  
proof.

My impression is that this  
could pay and I am willing  
to take any share of the  
risk that you may think  
fair.

Truly yours  
M. D. A. W.
