

27, Paternoster Row.

London, Jan 20 1876  
E.C.

Dear Dr Dawson

We thank  
you for your letters and  
in reply regret to say that  
"Life's Dawn on Earth" has  
not been going off lately  
so speedily as we could  
desire, and we have, consequently,  
a large number of the second  
thousand still on hand.

We think it would be  
undesirable to go to press  
at present with a new  
edition, but we will communicate  
with you immediately we

Ward & Co  
Sept 17/76

think it necessary -

We have heard from Messrs Roberts Bros who inform us they have not been able to take up an Edition themselves, but can be supplied with any copies they want from Canada -

The two parcels of Supplementary matter are safely to hand, and we will keep them before us in case a second edition should be required -

We are, Dear Dr Dawson,

Yours very truly,

Ward & Co

Principal Dawson, L.L.D. &c
