Dear Sir

I trust you will pardon presumption, on my part, in asking a personal favor; but, remembering the kind interest you took in the pupils of the Normal School during your Principalship of that institution; and having been one of that favored number, I would fain hope you, to lend me your interest in securing a situation.

I left the above school in '69, and taught in two different villages until the autumn of '74, my health failing so as

not to be able to fulfil
my engagement, since then
I have been unable to do
anything, I have so far re-
covered that I could take a
situation where duties were
not too hard.

I very much wish a situation as
soon as navigation opens, as an Assistant
Teacher, would be my preference, if not
obtainable would be glad to accept
any other capable of filling, say
travelling with a Lady, going to the sea side
&c. I can produce testimonials which
will show that in the past I have
given satisfaction, also personal certif.
if necessary. Should any situation be
conferred on me, through your kind
influence I shall endeavor as far as
in my power to do my duty satisfactorily.
Again I ask you to pardon the
liberty I have taken in addressing
you
