2 May 1876

Dear Sir

My printers have handed me your letter of March 22, & they tell me that your copy of the Geological Record was sent early in April. It certainly ought to have been sent long before, & I am very sorry that it was not.

I never had your son's

name as a subscriber, but
am very glad to have it, &
hope to keep both your names
on our list. A copy has
been sent to him I believe.

A copy was also sent
to the "Canadian Naturalist,"
which journal I understood
from you would be sent
in exchange. The last
No. however that has come
to hand is that for November
1874 (Vol. vii, No. 6). Will
you kindly arrange that the
rest may be sent as soon as

possible? In the having
a scientific journal for
ourselves saves a deal of
trouble in hunting up
libraries. If you can
~~get~~ each No., ^{sent} as it comes
out in future you will be
doing us a good service.

I ought to have written
long ago about this, but
I thought I had received
later Nos.

Please excuse my thus
troubling you, as it is not

from a selfish motive, &
Believe me

Your very truly
W. W. Walker
