

Geological Survey

May 17. 46

Dear Sir

I have received your note,  
and enclose receipt.

I send seven more townships sections.  
These are all I can find among my old  
lot of slides that I am sure about.

I send them in one of your boxes which  
you will please put on one side till I  
send the other three sets of fossil wood.

Mr Comstock has returned the Eozoon  
sections I sent, saying. - "I am sorry to  
return them to you, as I cannot now buy  
them, having asked already for so many  
things for my department that it is not  
wise to do more. It may be that I shall be  
able to get them when I return from Philadelphia."

If you think it would be wise to send  
them back as a present to him, I will  
do so

Very truly  
Thos. Weston
