

NOTHING BUT THE ADDRESS CAN BE PLACED ON THIS SIDE.

Principal J. W. Dawson,
McGill College -
Montreal, Canada

Dear Sir, I have been so hard
pressed with other work that I
have done nothing further with the
Sporangia since I met you in Wash-
ington. Dr. Hagenow is certain that
I showed him thread-like bodies
with the spores attached. Stephens
at first, he became confident, but
just then my own mind passed into
a state of suspension of judgment.
I will get some of my students
at work soon, if I can, and I
will promptly communicate any new
facts to you. I do not think
any envelopes are shown in any
of my specimens -

Very respectfully -
Columbu, D
March 14th 1853,
Edward Weston
