Dear Professor Frazer

I enclose herewith ^{cheque} for \$25.25, for which please send me receipt.

As to the pamphlets, if you will kindly send me three or four more

I shall be glad to have them, but they are not of much consequence.

I must however ask you finally to hand in my resignation to the Committee. The whole affair, as represented in the pamphlet, so seems to me little more than the action of a quantity of Geological cranks, and I do not care to have my name associated with it.

Truly Yours
