Dear Sir

It will be a subject of sincere regret on the part of your colleagues on the American Committee of the International Congress of Geologists that your professional duties deprive them of your presence and counsel at their meeting in New York on the 8th inst., but I feel sure of echoing the sentiment of all of them in saying they cannot consent to lose you altogether from the Committee whilst it is in their power to such a loss. I shall take pleasure in laying before the committee your kind offer to aid them during your next visit to England.

I remain Sir with great respect
