

The Grand Trunk Railway Company of Canada.

OFFICE OF ASSIST. LOCOMOTIVE SUPERINTENDENT.

Bellville Station, June 21st 1876

Dear Sir,

There are some extraordinary specimens of well preserved vegetable matter in some coal we are now using, from Northern Pennsylvania — and I have taken the liberty of writing you thinking you would like a specimen for your museum or for your own information — What appears unusual to me may be very familiar to you. But I will send you a piece if you like.

yours faithfully
Kennel Blackwell

The Grand Trunk Railway Company of Canada.

Office of Assistant Locomotive Superintendent.
