Dear Sir

Prof Robin  
has gone over the papers  
of Miss Barlow & Starke  
with me very carefully  
today. He says I could  
not possibly have report-  
ed otherwise than I did

There are instances of  
similarity that no theory  
of "community of thought  
and method" could possibly  
cover. I hope Miss  
Barlow's people will

not bring the matter  
before the public, but  
if they do I believe we  
can easily show that  
she has long been  
guilty of similar con-  
duct — even when  
she was in the Model  
school. Prof Roberts  
has written to Prin<sup>t</sup>  
Hicks his opinion of  
the papers

Yours truly  
Geo M. Gregor
