

Hawthorne  
July 26

McGill College  
July the 26<sup>th</sup>  
Principal Dawson

Dear Sir  
Yesterday evening I  
received the three boxes  
of specimens and put  
them into the Labra-  
tory as you mentioned  
in your letter.

The painter has finish-  
ed the windows the  
are all up again  
and the roofs of the  
College & Library and  
the east wing is finish-  
ed with 2 Coats of  
brown paint.

The tinsmith is finished  
his work and the  
Carpenter has put up  
a scaffold from the Chem-  
istry Class room roof to  
repair the other chimney  
the men walking on &  
fitting up the scaffold  
I suspect it will not serve

here  
the roof the new room  
is finished with the mason  
\* brick work ready for the  
roofing there is 2 windows  
9 feet by 2 feet 8 in wide  
with 20 inch of brick wall  
between there will be a  
window of 4 feet over the  
door Dr Carpenter is now  
working in the shell room  
in the centre building

and the museum is  
now open to visitors  
Mr Garth is doing all  
that can be done with  
the heating apparatus in  
his shop so that he  
will only have to fit  
up when he commences

Mr Principal  
Dawson

I remain your  
humble servt.

Robert Hamilton
