

Lincoln Nebraska.

July 28. 1876.

J. W. Dawson, L. L. D.,

Dear Sir,

I have requested my publishers to forward to you a copy of The Modern Genesis, a small volume on the Nebular Theory.

I take this liberty, trusting that you will do me the favor to read the work and assuring you that, having written with the single object to promote the interests of true science, I shall sincerely welcome just criticism.

I am, with great respect,

Yours truly

W. B. Slaughter.
