

Kiel, Oct. 5. 1876.

My dear Sir,

I am very anxious to get a good set of slices of *Eozoon canadense* Daws., to finish my comparative researches respecting *Eozoon* and some *Foraminifera*. Be so kind to let prepare a set by Mr Weston for the Zoological Museum of the University of Kiel. I shall pay it by the mail or by an American banker you or Mr Weston may design.

Believe me

Yours very sincerely

H. Möbius, Professor
