

Private

Ottawa 23 October 1876

My dear W. Dawson,

The printed copy of
your last testimonial referred to
in your note of the 20th instant
has reached me. I shall
take care that they are placed
in files as available when
required. I shall endeavor to
place a copy, as you desire, in
Mr. Muller's hands.

It would be a very great
pleasure to me to be able to

apart in any way in securing
your kind services for the staff
of the Geological Survey of Canada.
I am sure that I could not do
any thing which would more
promote the interests of the Service.

Believe me

Yours faithfully

S. A. Mendall

H. Dawson
