

Hill

Ambert, Nov 20 76

My dear Sir,

I am in receipt of your favor of 14th inst. and acknowledge with many thanks the favor you have done me in submitting my name to the Nat. Hist. Society.

I forward to you by post from, all charges paid as far as could be collected here, a box containing two pieces of the 2nd axes (?) and

a pair of the 1st do. with shown by the tally line in
all the pieces of rock of red on the labels and show
the latter that I could get pretty well the connection
and which exhibits surface between the carbonyl core
markings that may prove also the roadstone cast.
intending as throwing some If thought advisable I can
light on the specimens of lign. easily extract the stamp
On the back I give a rough and get further informa-
sketch of flow and section with covering it.
of the stamp containing the I am dear Sir
sp's. which I have no way very faithfully yours
of determining other than About I. Hill
than as axes No 2. The
the pieces fit together as
