My dear Sir

Yours of the 18th

last, addressed to his
Worship the Mayor
has just reached me,

and I have to express regret
that you should have been
interfered with in your
study of the Mountains, but
can not attach blame to
the Park Police, in as
much as they are instructed
not to allow any thing on
the Mountain to be disturbed,
not of course thinking of
visits of students of Geology

but I shall at once
give such instructions
as will prevent future
interference. I am Sir
Yours
