

to our country & race I am ever

Yours very respectfully & affectionately

E. J. Feltman

J. W. Dawson Esq

Princeton College

Leopold

Dr. Clifton.

Nov. 28, 1876.

My dear Dr. Dawson

The English Post

Martin F. Lupper has done
us the honour of being our
guest during last week &
a most dear & holy man
he is - & I heartily thank God
that he gave him to us for
those few precious days -
he tells me that he has read
some of your works & was
so much gratified & delighted
that he wrote to you &

received a beautiful letter from you in
reply - He would like very much to see you -
& he has given me permission to say that a
letter left for him at the Montreal Post Office
will find him on the first of the month - December
he left here yesterday for Ottawa & he expects to
go from there to Kingston & thence to your City -
Should you wish to have him as your guest you
can do so by leaving your invitation in the Montreal
P. O. to await his arrival - You & Mrs. Samson
will find him a most congenial spirit, a dear
wise good man. In his presence one puts
"the inner spirit keeping holiday"
"Like aernal ground to Sabbath sunshine left"

there is such a sweet companionable pleas-
antness in him - His visit to us will ever be
a very bright spot in our life - & I write in
the hope that I may possibly be the humble means
of giving you both the great pleasure hap-
piness of each other for the ^{day or two} few days the ~~back~~ ^{will}
be in your city - Ever grateful for the very
much I owe to your example & teaching during
my College course, both intellectually & religious-
ly & thankful that God still spares you
