

Meyer
Sept 76

Brookfield Dec 19th 1876

Dear Dr. Dawson,

I have had with
great pleasure the report of the
Examinations in Botany, I had
felt rather anxious as to the
result, as some papers were sent
in by accident —

With regard to your great kindness
& generosity to the Association,
while thanking you sincerely,
in the name of its Members,
I am sure they will feel with

I'm that we have already
taxed you too heavily, & ought
to bear our own burdens —

I trust that with the rest of the
community, brighter times may
put us in a better position, but
this hope does not diminish
the gratitude felt, for your un-
varying steady interest & support,
from the beginning —

I must also thank you for
so soon giving the result of
the Exam. The list has been
collected for with anxiety,

but we had not ventured to
expect it yet —

Believe me

Yours truly

Henry Meigs

Hon. Sec. L. Ass.
