

were here
of which the English part has
occupied so much time & attention
closely for many weeks past,
would have been ready to be issued
before this - But at the moment of
writing the Authorized English texts
of the two laws on Education
passed last session have not yet
been sent from the Queen's Printers,
and our edition of the School Acts
must wait for that, if it happens
to be completed before it - For
our own use we did secure a
copy in sheets - The printing of these
Acts (School) being done in Montreal is
likewise a vexatious cause of
interruption & delay - The whole is how-
ever in type & a great portion in page
and I have reason to believe it
will be ready for circulation in
about 10 days -

I shall have occasion to write again
when I send the Acts & the Lists to
you, & should be glad if you would furnish
an address in case you leave town as
usual in May or June -
Yours truly,
H. H. Miles

2. May 22 1877

My dear Sir

Enclosed please find the
official cheque for the sum
of which you signed receipt -
The other gentlemen had to
be written to to obtain their
signatures before I could get
the accounts arranged with
Mr Campeau - & this has
caused some delay.

The lists of books & special
instructions to Inspectors have
now been struck off, & the
distribution of them will be
proceeded with after tomorrow
which is a public holiday -
I had hoped that our new
edition of the School Acts of
which I made mention when
you

...of which the British part has
occupied to much time & trouble
chiefly for many weeks past,
would have been better to be
before this - that of the moment of
writing the book, which is
of the two laws on education
I have not defined, I have not yet
seen but from the British part
and our edition of the school act
must wait for that, if it happens
to be completed before it - for
our own use we did secure a
copy in sheet - the printing of the
act (which) being done in sheet is
therefore a very nice cause of
interference & delay - the whole is done
in type & a great portion in page
and I have reason to believe it
will be ready for circulation in
about 10 days -
I shall have occasion to write again
when I send the act to the printer to
you, & should be glad you would furnish
an address in case you have time as
usual in May or June -
Yours truly
J. F. W. G.

1877
Official charges for the same
of which the signed receipt
The other gentlemen had to
be written to obtain their
signatures before I could get
the account arranged with
Mr Campbell - & this has
caused some delay.
The list of books & official
instruments to be distributed
has been struck off, & the
distribution of them will be
proceeded with after I have
which is a public holiday -
I had hope that you saw
edition of the school act of
which I have mentioned when
you
