

according as they run upon the  
rarer kinds, but those at 1/-  
will embrace the characteristic  
Mollusca <sup>Corals</sup> ~~Fossils~~ - Crinoids  
are at separate prices according  
to their character but I have  
only the Woodocerinum from  
the C. L.

In Silurian I have a  
fine series of Crinoids of  
several genera together with  
the Corals Trilobites & Mollusca  
altogether a good collection.

Of other Fossils my list

25 Oct 1877

Dear Sir

4, Pallieney Buildings,  
Weymouth.

In reply to your favor of the  
11<sup>th</sup> inst I beg to enclose a copy of  
my last abridged circular.

I can make you up a Coll.  
of Syrian & Egyptian Fossils that  
will embrace the following species  
for £10. and these are the nearest  
to your desiderata that I can  
furnish.

of carboniferous Fossils  
I can send any number of sp  
up to 100 & including foreign to  
150. at 1/6 a species or 1/6

Damon  
No 77

inclosed will <sup>give</sup> you some good  
idea

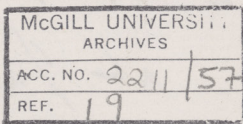

I am

Dear Sir  
Yours Truly  
Robert Damon

—

P S

Do you know what has  
become of J P Carpenter's  
collection of shells - ?

about 12 species of Trilobites from  
the Up. Cretaceous Lebanon  
named after Pictet & Humbert  
well preserved

---

Some 20 sp of Cretaceous or  
Tertiary shells &c I cannot  
determine with certainty but I  
should incline to the latter  
several are new to me

---

2 or 3 characteristic species  
of Mollusca of the Jurassic  
from St M. Hermon

---

Some characteristic species from  
the Eocene of Egypt <sup>Vol V</sup>  
Cairo & Base of G. Pyramid

Thank for money - not  
for what was as in  
stratum & Paleocene  
and has not in me.

If you could not get  
out & see £5 - a  
bit of my

3 species *Tribuna* *Tribuna*

10 to 20 of *Tribuna* of *Tribuna*  
& *Tribuna* shells

20 of *Tribuna* *Tribuna*

and send to me sample in  
old I could take them

Would like specimens  
thus blocks as well  
- as fossils -
