

our London Series of Serina
Class Books undertake that
each ~~the~~ volume does not
exceed 142 pages.

We enclose a prospectus of
both Series:

We should also be glad to
know the probable number
of woodcuts likely to be
required, and any further
details Principal Dawson
is kind enough to
place before us will be
most acceptable.

We are Gentlemen
faithfully yours

Longmans, Green, & Co.

West-Block & Boyd

39, Paternoster Row, London, E.C.

November 2 1877

Gentlemen

We duly received
your letter of October 24,
and are obliged by your
sending us the memorandum
from Principal Dawson
of Montreal.

We are fully prepared to

your Principal Dawson's
proposed Text Book on
Geology on careful con-
-sideration, but the short
statement you send us is
not sufficient for us
to form a decided opinion
in the matter.

We must therefore trouble
you to ask Principal Dawson
if he would kindly
favor us with some
more details connected

with the book.

In the first place we
do not feel sure whether
it is intended to publish
the work as one of our
Series of "Text Books
of Science" or as one of our
London Series of Science
Class Books"

The contributions to our Series
of Text Books of Science are
limited to ~~the~~ 320 pages,
and the contribution to
