

Tweeddale Court,
Edinburgh 22nd Nov. 1877

Dear Sir

We wrote to you on 3rd
inst^{ce} and we have forwarded
today by same post two
proofs of the whole of the
Supplement to "Canadian Geology"
with the MS. You may
perhaps wish to see fresh
proofs embodying any alterations
you may make, in which
case we should be glad
to send them.

When you return the

Supplement for press, you
will of course send us
instructions stating your wishes
as to the number of copies
to be printed, the number
to be bound with the current
edition, and the number of
Supplement to be done
up separately: and also
as to despatch of sheets to
America or otherwise, and
any other matter, and we
shall carefully attend to your
wishes. We presume

that you will retain for
reference one of the proofs
now sent.

Yours

Dear Sir

Yours faithfully

Oliver Boyd
