

Prague 28 Nov. 1877

Bremte Gasse 25

J. B. Meek Esq.

Dear Sir:

I acknowledge the reception of the Invertebrate Paleontology and a series of the Reports of the New York State Cabinet. In exchange you shall receive the whole series of publications, Archiv der Landesdurchforschung Böhmen, and some of my publications.

I prepare a large work on Labyrinthodonts of the coal and permian and have great want of two books of Dr. Dawson.

1. The Air breathers of the Coal Period 1863 and
2. Akadian Geology 2<sup>d</sup> edition (To exchange or to buy)

You would make me a great service to recommend me to Dr. Dawson or to let me know his address.

I remain

Yours

(signed) Dr. Ant. Fritsch
