

% Mrs Tucker  
Chatham House  
Bromley Kent  
England 10<sup>th</sup> Decr.

My dear Sir

When I had the  
pleasure of seeing you last  
year in your own house,  
and conversing with you  
a little about my son  
who was then going through  
the School of Mines, you  
spoke so kindly about the  
possibility of his getting  
some employment in Canada  
when he passed through

The School of Mines, that  
I take the liberty of  
addressing you again on  
the subject.

He has passed over in  
the 1<sup>st</sup> class in all the  
subjects of examination for  
three years. But trade is  
so low and depressed in  
England that he finds it  
difficult to get any thing  
to do. It is possible that  
you might know of  
something that he could  
be capable of undertaking  
If such might be the

case, and you would  
kindly mention it to  
Mr. Baynes instead of  
taking the trouble to  
answer this in the  
multiplicity of your business,  
I would be for ever  
thankful.

I beg to enclose a  
list of his qualifications &  
to remain

my dear Sir

I am truly yours

Henry W. McCarthy.

Doctor Dawson  
Montreal.
