REF. 37

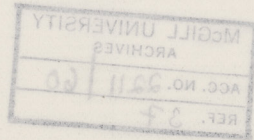

26 Marlboro Street -

Boston Mass. 20. 1878.

Dear Dr. Dawson

You will probably by this  
mail get a copy of the new Edition of my  
Chemical & Geological Essays with a preface  
part of which you have seen - and which  
I hope you will like. I have paid off  
Dawe, as you see, by quoting his own  
words. I am sorry you do not  
think of getting over to Paris this sum-  
mer - and shall be glad to do anything  
I can for you in New York of taking spe-  
cimens, etc. - I hope to be in Montreal  
by the early days of June & to sail from

Dr. Dawson  
June 20/78

Quebec. I am sorry to say that Mrs. Hunt's  
health is such that she will probably  
spend the summer in Montreal, and  
I shall hasten back there. I hope that  
my sisters will be my companions  
in the journey to England & France.

I shall be very glad to do any thing  
in my power for William & shall  
not fail to bring his claims before  
such of my friends as may be able  
to advance his interests.

My wife joins with me in best regards  
to you and yours and I remain

Very sincerely Yrs

Leopold Hunt

Dr. J. W. Dawson
