

Montreal

16th April 1848.

My Dear Dr. Dawson

I have just received from Mr. Clayton all the reports and papers which he had as convenor of the Depository Committee in connection with the C. & S. Union - he has handed them to me in the expectation, he says, that I would be appointed convenor in his place, and he suggests that another member, say Mr. J. Lyman, be appointed on that

Committee in his
stead. He, Mr. C., goes
off on Thursday for
Europe and it has
occurred to me that
as the president of
the society you might
give him a Carte-Blanche
to plead the society's cause
while in London, he might
perhaps succeed in obtain-
ing some remission from
the amount of its obligations
to the Tract Socy of
London or some subscrip.

tions which could be applied in liquidation of that account.

This is an idea which has just occurred to me and I write without reflection or knowledge of how it might affect the Society's interests.

You will know best how to do in the matter.

Yours very sincerely
David W. Paulane
