

Montreal 21st May
1878.

J. Dawson,

Dear Sir,

Immediately after
receiving your letter regard-
ing Saberton, I wrote to Mr.
Butter. I had a letter from
him in reply, informing
me that he had written to
you, but was afraid he
had omitted some par-
ticulars. Miss Hampton
& Miss Warren, both teachers,

and supply fuel during the long
winter. Prof. Knapp has a Por-
tial School Certificate. Prof. W.
has only recently completed
his school with Prof. Knapp
and Knapp Knapp, are highly
satisfied with Prof. Knapp's
The Department of the place.
With regard to the other three
are none at present. But a
Mr. Knapp has a deep interest
in the work and there is another

the one having classes,
~~from~~ for four hours in
the forenoon, and the
other two or three hours
in the ef. The children
attend in the morning
the men & women in
the ef. Both of these women
receive \$100 per annum.
Very little is done by the
people, for they are exceedingly
poor. but they send
fish & fowls, to the teachers

whose name is present I can
not recollect! I think both would
be willing to ask. But whether
leaves each week for tobacco
and much for arrangements
made, during the summer.
I cannot think of anything
further to add. I do hope
the application may be
successful. I am, dear Sir,
Yours very truly,

J. M. McKee.
