Dear Dr. Dawson

I have just finished reading your very interesting and effective article upon the Rights and Duties of Science. I shall comply with your request in reference to the separate publication of 100 copies in pamphlet form.

I am just sending

note the various phases of thought which may  
arise, in order that at some proper juncture  
you may request from you an article,  
which you can readily put in shape.

out the September issue  
which I hope you will  
interesting, and of  
which we are circulating  
a very large number.

With the kindest  
regards, I remain  
Yours M. Libbey

It occurs to me to add,  
that many interesting points  
will arise in connection  
with your special researches  
which may be of vital  
importance to the outside  
world

Will you not carefully
