

GEOLOGICAL SURVEY OF CANADA

(Museum and Office, 76 S.^e Gabriel Street) MONTREAL.

Sept 28th, 1878.

To Principal Dawson L. L. D., F. R. S.

Dear Sir,

All the species mentioned in your letter are represented in the Museum by single specimens only, which could not be broken without great risk of spoiling them. Of *Archeocyathus Atlanticus*, *profundus*, & *helocypira Granti* we could easily spare good examples ~~you~~ for Prof. Zittel, if these would be of any use to him. Probably, it would be as well, as you suggest, that I should communicate with him personally on the matter, the more so as he has written to us asking for a loan of such specimens as we could spare.

Faithfully & respectfully yours,
J. F. Whiteaves.
