Phoenixville Oct 3 1874

Dear Doctor Dawson:

I have your favor
of the 30th -

It will give me great
pleasure to ascertain from the
heads of both the Thomas Iron Co
& the Phoenix Bridge Co. whether there
is any opening for iron in N. Y. now.
I shall be absent from home
but on Saturday or Monday I shall
be able to call & urge his claims.
The Iron Works are busy now on the N. Y.
Metropolitan Elevated R. R. - or still there may
be a chance: - but there are many
orders are few here now.

Yours
James Douglas
