

The Religious Tract Society,
56, Paternoster Row,

London 15th Oct 1878
E.C.

My dear Sir,

I am much obliged by your note, & approve your new title very decidedly. There is a great suggestiveness in the idea that links in a chain do not grow out of one another! —

Do not hurry yourself with the MS. in any way that would interfere with its completeness.

It will be well, we think, that you should get the stereos for us of your drawings, as the most economical way, so far as you can do this. Other sketches we will have carefully engraved. You will understand that we wish to be able to circulate the book at as low a cost as will allow for every part being thoroughly

well done, with a view to the general
reader -

Whether you will transmit any
part of the MS. before the whole is ready,
we leave with you to decide. We
have already printed the books intended
for the Christmas & New Year's sales
but shall be glad to put this in hand
as soon as may be; and shall now
venture to announce it, under your
later title -

With much respect, believe me
to remain

Faithfully yours

Saml G. Green

In the

Principal Dawson.
