

Nov 25th/78

My dear Sir,

The only way that
occurs to me of raising money
for the purpose you mention,
is to get some of the well
to do graduates in Burlington
of money in the matter,
and to write to others
elsewhere inviting them to
contribute. Of course such
Scholarships & Exhibitions as
we have are open to you

Men entering the Faculty
of Arts, but we have
none in the Science Faculty,
except the Scott Exhibition,
nor do I think that in
the depressed state of things
here it would be
of any service to try to
secure more.

I shall ask Dr. H.
about your paper on
the Diaptolites; we should
have it laid before the

Nat. Hist. Socy as well as
printed

Dr. Dawson has been
turned. I shall require
about his Report, and
whether he can get me
for Mr. Miller. I know things
are very scarce, but
possibly one may be
had.

With all kind
Regards
Yours truly
W. Dawson

W. Spencer Esq (over)

P.S. Sent up some
time ago to Mr. Dakin
(to whom please give my
kind regards) copies
of our new higher oars
for women. Are you
likely to have any
candidates? I shall
be glad in any case
to know what Mr.
D thinks of them.

Truly yours

W.D.
