

Dr Dawson

Dear Sir.

I visited
Montreal on purpose to hear your
Harvard lecture and was amply
repaid. I wished very much to add
my thanks personally that day.

I am a true English woman but my
sympathies and friends are a great
deal American, and in some way I
have felt my life more helped along
by them than I can feel here in
Canada. Perhaps my isolated country
life has something to do with it.

I send you with this
something that may seem
foolish to you - no doubt they are
plentiful enough on the Island.

My son plowed it up in one
of the fields, and I thought I would

a busy happy household
but in our plain way can
give you a cordial welcome
With best wishes
Believe me

Respectfully yours
Annie L. Jack

Mrs Robert Jack,

T.G.

send it - to you, as I observe
little from this section of
country in the Museums.

I notice in the

New York Tribune today a
new item to me - It says,

"The gold medal in the Faculty
of Law in McGill College
Montreal, was won by a lady,"
and the same mail brought me
a letter from Dr Clarke's daughter
who visited McGill with me last-
year asking if it was true,

I hope to have the pleasure of
hearing again in your Hall
lectures to which ladies are
admitted. Unfortunately I do
not always know in time when
such take place,

I hope if ever you are near
Charlevoix you will visit
me. My husband is devoted
to horticulture and we are
