

Utica N.Y. Dec 26, 1878

John William Dawson

Dear Sir,

Can you give me the address of anyone, or of several of whom I can procure fossils from the Trenton & Quebec Groups of Canada, either by purchase or in exchange. I am working up the Lower Silurian formations of this State and I have a large amt. of material on hand, and I wish very much for study and comparison the fossil forms peculiar to the formations of Canada and as described in your Geo Repts. I would like those species that are common as well as those more rare, if they can be obtained, as many species common with you are not common here. As it is impossible

for me to mark the localities any
aid you may give me for
=ally, on by following me in
-propendues with common
the car, will be of aid to me
and will consider it a great
favor.

Very truly
O. Hullburt
