Prof J. W. Dawson

Dear Sir

Your letter and the books were received today, the books are all right with one exception viz. Dawson & Besant two copies of vol 7, 1st series. I will return one copy for vol 8, 1st series or will keep both vols and send you several species of *Pentamerites* viz *Pentamerites pyramidalis* (2), *P. Kennerlyana* (2) *P. coroides* (2), *P. calycinus* (Lyon) (2) *P. froesealis* (2) in all 5 species and 10 specimens, in exchange for vol 8, 1st series.

In reference to the duty, I think the 80 additional specimens are worth about \$15.00 which will more than cover the duty.

I wrote to you the other day, making inquiries about the box of fossils, thought perhaps it might have been lost on the way, am very glad that it has been received all right and that you are pleased with its contents. Hoping to hear from you soon.

I am your respectfully
Victor W. Lyon.
