

Chaque Ave }  
Montreal, } July 24, 1879,

My dear Sir Murray

I think I  
sent the description of  
the Leptodendron, en-  
closed herewith and

the Dadix you some  
time ago; in case  
however they have

unscarred I repeat  
them. I add the

other specimens were  
recently received. My

excuse for delay as  
to the latter is that

Check on }  
Dated }  
1841

Put Bell and Mr Patten  
due. You are some new  
things about if I can do with  
shall send note to you.

With all kinds regards  
and best wishes

Yours very sincerely  
Wm Smith

Wm Smith

I had very little time  
and the specimens  
were obscure, and I  
had hoped that you  
would have found some  
others. These are  
all the specimens  
sent by you now  
in my hands; and  
if you require them for  
your collection I shall  
return them in any  
way you may direct.

I have some specimens  
of Carboniferous shells from  
collections given me

Copy & Mummy

July 27/29

been advised, and I  
 would have found some  
 other. There are  
 all the specimens  
 sent of you were  
 in my hands; and  
 if you require them for  
 your collection I will  
 return them to you  
 very soon.  
 Yours ever  
 J. G. Thompson
