My Dear Dr Dawson

I am much obliged to you for the copy of William's Testimonials, which are so excellent that they ought to secure success to him, if that is to depend on merit.

Unfortunately there are so many other elements frequently allowed to bias the patron that merit often plays a very secondary part.

It will be a great gratification to me if I can help his candidature in any way.

Many thanks for the interest you express in our late struggle for the election of a Bishop of

Jamie, though still needing
much increase of strength, is
well, & in the best of spirits;
and we rejoice accordingly
that our mourning has
thus been turned into joy;
for ours would have
been a very desolate
household had the fears
with which the old year
drew to a close been
realized.

All here unite in kindest
love to Mrs Dawson & to Anna,
and send to William their
heartiest wishes for his success.
It was a great disappointment

to have his missing the
Toronto appointment. They
fully counted on him
as an acquisition to our
College & home circle.

Yours faithfully

Doc. Wilson
