My dear Sir,

I am happy to hear
that You have found so good
a position for the Northern
plants as alongside of the
Lapland Collection. This
certainly the best place for
them - especially if by Com-
-parison on a large scale of
Sub-Arctic Floras, light can
be thrown on the various
Problems & Theories, not to
call them Myths, of the Glacial
age & the great Ocean Currents,

of

of that remote Period.

Yours Truly
