

SPENCER F. BAIRD,
Commissioner.

United States Commission, Fish and Fisheries,

Provincetown, Mass.
Washington, D. C.,

Aug. 2, 1899.

Dear Dr. Dawson.

Mr. Goode has made for me quite an elaborate article in regard to acceptable papers relating to the fishes of North America, which I send you. You can communicate any portion of it that you may think proper to the Governor General. If he wants any or all of them the better plan is to apply to the American Naturalist-Book Agency, Salem, Mass, or to Dr. A. E. Foote, Permanent-Exhibition Building, Philadelphia.

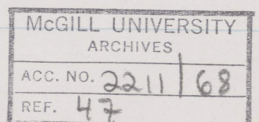

Yours very truly,

Spencer Baird

Dr. J. W. Dawson.

Little Metis.

Province of Quebec.
