

New Richmond. Prov. Quebec

Aug. 18. 1879.

My dear Principal Dawson -

I have received today
your letter of the 13th and am
wiled much obliged to you for the
exhaustive list of books on titles,
as well as for the information
previously conveyed to me on
Ornithological books -

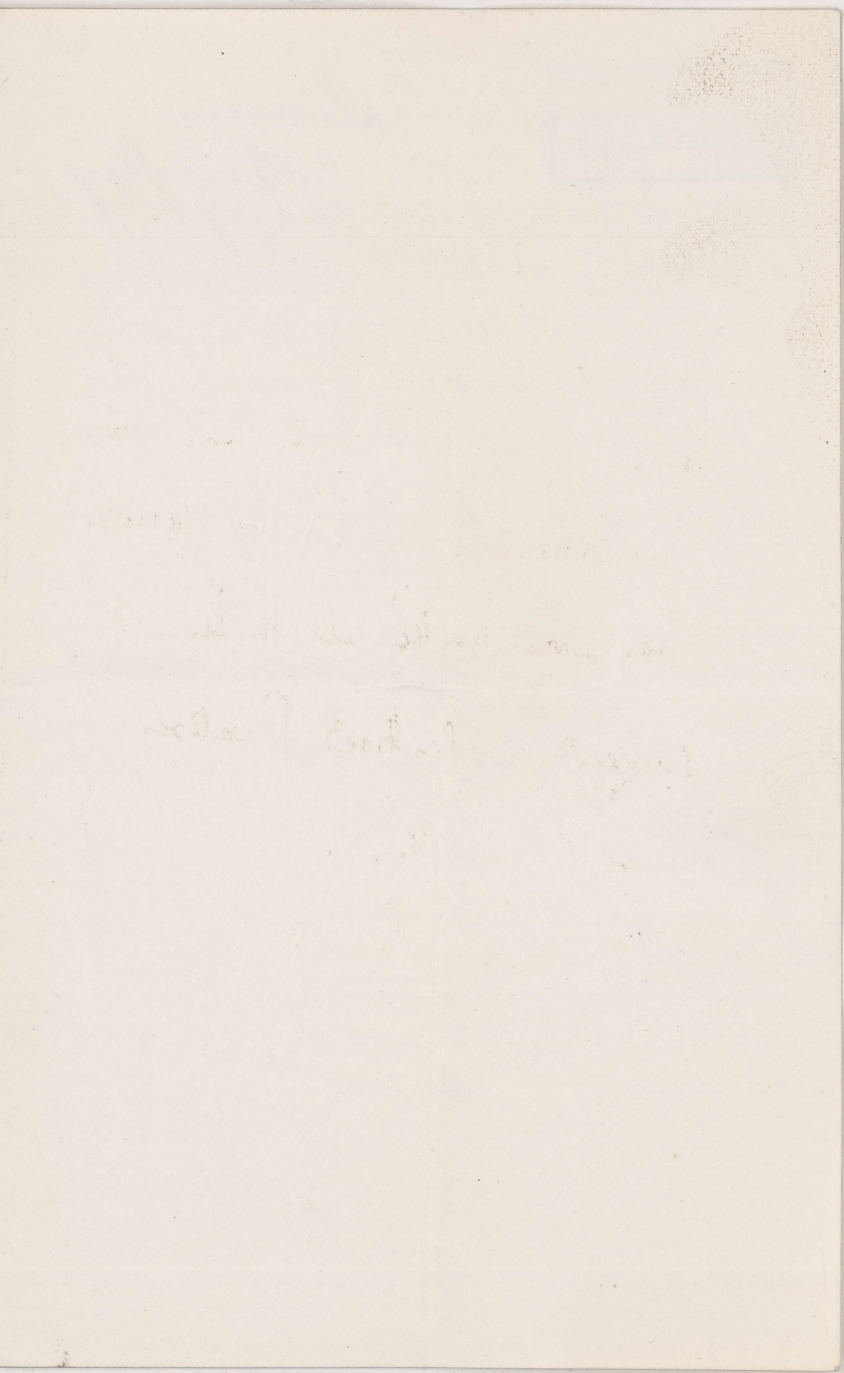

As you say the

Residua are being fast
filled up, & I hope that some
comprehensive work like Yarell's
may soon make all the knowledge
conveyed in scattered Treatises
more accessible.

With many thanks

Believe me

Yours sincerely
John Lubbock
