

P. S. Island

26 Aug '79

My dear Dr Dawson.

My son leaves this  
day for Montreal &  
by him I send to your  
address a small box  
containing stove  
supplements. Will

You have them to my friend Mr  
Harrington. I regret that  
they are not better worth  
his acceptance. We have  
had a very cold summer  
but there is. I may say  
the assurance, of the work  
abundant harvest even  
gathered in this island

With kind regards to the  
members of your family

Remain

My dear J Dawson

Yours very faithfully

W W de
