

68 Cannon St West
London Sept 10th 79

Dear Sir

Many thanks for your kind reply to my letter I send you with this a few pieces which I trust will be useful No 1 I think would answer for showing it shows the position of the laminae and by cutting between them I think you will get the best view of the radiating canals. If you saw cut transversely through the centre of the radiating form I think you will be able to get a pretty good idea of the structure No 2. I send you thinking you might like a small specimen for your cabinet. The piece marked with a \times shows the radiating canals open on the surface, it is the only specimen that I have found where the starry form
