Knowlton, 24 Oct. 79.

My dear Principal, I got home from
Leweburgh yesterday to dinner; &
with the change of weather, have
not risked going out since. Though
I am on the whole mending.

Should I hear from you to-night
in the sense of wanting me to show
the weather make it possible, I
mean to come in by the train.
Though crossing by ferry is not
likely to be very nice, as things
are looking now. I could perhaps
hope the meeting may have been
put off, as Pagnas hinted.

If I am how can, I mean at
latest to be in, the beginning of
the week; though it can only be
for a flying call even then.

I drop you just this line, to
explain, in case I should not see
you to-morrow. - By the way, if
just occurs to me, whether or not
you got a letter I mailed you from
Leweburgh on Tuesday. In haste,
Yours affly
