

Dec. 5th 1899

My dear Dr Dawson

I shall keep the
Meeting of the Subcommittee
of the C. P. S. faithfully
in remembrance.

Allow me to take occasion
to say that I have read the
reports of your lectures on prophecy
with a great deal of attention
& interest. I have always
believed, as I do still most

Simply that the vision of
future events has been
sometimes granted and that
more frequently than any word
gives us the knowledge of —
I mean Supernatural, or
Divine granted, since
the fact demands for its
explanation a power beyond
anything that we can think
of except the Supernatural
or Divine. At one time
the subject occupied me

very much but I got perplexed
with the affairs of expositions.

I hope you intend your
lectures for publication.

I am

Yours most truly

William S. Leach
