

Kingston Toronto Kingston  
Feb/80. Feb. 1880

Dear D. Dawson

you mentioned today  
being leading in Montreal some  
late discoveries in the Sineate  
peninsula - casting much light on  
the nature of the rocks. I have  
before seen reference made to these  
but cannot remember when they are  
to be found - If you could give me  
this information I should be very much  
obliged - With kindest remembrance  
to your and yours. allow me to

Remain very faithfully yours

W. J. Ransom
