

GEOLOGICAL SOCIETY,

BURLINGTON HOUSE, W.

9 April 1880

SIR,

I HAVE the honour to inform you that your paper transmitted to the Geological Society,

on new Eriac (Duméril) Plants

has been received.

I have also to direct your attention to the following Bye-Laws and Resolutions of the Council relative to papers communicated to the Society:—

1. Every paper communicated to the Society, in order to be read at its Meetings, shall be deemed the property of the Society from the time of its being delivered at the house of the Society; unless any previous engagement to the contrary shall have been made with the author.

2. Selections of the papers read before the Society shall be published from time to time.

3. That no author shall be allowed to have his paper returned to him after it has been read and ordered to be printed, until it is in type.

4. That should the authors' corrections of the press, in any paper published in the Journal or Transactions, amount to a greater sum than in the proportion of Thirty Shillings per sheet, such excess shall be borne by the author himself, and not by the Society.

5. That authors of papers printed in the Quarterly Journal, in addition to twenty-five private copies presented free of expense, be allowed any further number not exceeding one hundred, they paying the expense of such extra copies.

6. That if proofs of author's papers be sent to them for correction, and be retained by them beyond three days for each sheet of such proof, not including the time needful for transmission by post, such proof shall be assumed to require no further correction.

I request you to inform me, on returning the proof of your paper sent to you for correction, whether it is your intention to avail yourself of the permission granted in the fifth of the above resolutions, and to what extent.

I remain, Sir,

Your faithful Servant,

W. S. Dallas

Assistant Secretary.

D. J. W. Dawson

Turn over

GEOLOGICAL SOCIETY.

Secretaries House W

1880

Sir

I have the honor to inform you that your paper transmitted to the Geological Society

has been received

I have also the honor to inform you that your Laws and Resolutions of the Council relative to papers communicated to the Society

Every paper communicated to the Society in order to be read at the Meetings shall be deemed the property of the Society from the time of its being delivered at the house of the Secretary and any previous engagement to the contrary shall have been made with the author

1. Selections of the papers read before the Society shall be published from time to time

2. That an author shall be allowed to have his paper returned to him after it has been read and ordered to be printed until it is in type

3. That should the authors' corrections of the press in any paper published in the Journal or Transactions amount to a greater amount than in the proportion of thirty minutes per sheet, such excess shall be borne by the author himself and not by the Society

4. That authors of papers printed in the Journal, in addition to twenty-five private copies presented free of expense, be allowed one hundred more not exceeding one hundred, being the expense of such extra copies

5. That if proofs of articles papers be sent to them for correction and be returned by them beyond three days for each sheet of one page not including the time needed for transmission by post, such proof shall be deemed to require no further correction

I request you to inform me on returning the proof of your paper sent to you for correction whether it is your intention to avail yourself of the permission granted in the bill of the above resolutions, and to what extent

I remain Sir

Your faithful servant

W. J. Bell

Secretary

1880

W. J. Bell

My dear Sir

Your paper has arrived quite
safely & will get read as soon as
I can. - I am afraid, however, that
it will be at least a month or
six weeks before it can be read.
Your friend C. D. Hahn is touched
up in the Pop. Sci. Review
this quarter. -

Yours truly
W. Dallas
